

Customer Complaint Report

Regulatory Affairs & Quality Desk - Zenith Retail Pharmacy Group

Field	Details
Complaint Source	Regulatory Authority (State Drug Control referral)
Customer Name	Zenith Retail Pharmacy Group
Complaint Date	12-09-2026
Product Name	Ibuprofen Tablets
Product Strength/Grade	400mg
Batch/Lot Number	IBU-400-3391
Manufacturing Date	20-01-2025
Expiry Date	19-01-2027
Quantity Affected	18 kg (approx. 3,600 tablets)

Description

A routine market surveillance sample collected by the State Drug Control authority from a retail outlet flagged visible yellow-brown discoloration on approximately 20% of tablets in the sampled strips from Batch IBU-400-3391. The discoloration is uneven and appears only on the tablet surface, with no accompanying odor change. The authority has referred the finding back to Zenith Retail Pharmacy Group, who purchased the batch directly from the manufacturer. No adverse events have been reported by patients to date, however the finding raises concern about potential oxidative degradation or a coating process deviation. An urgent stability and batch record review is requested, along with root cause analysis and CAPA within statutory timelines given the regulatory involvement.

Reported By: State Drug Control Compliance Cell (forwarded via Zenith Retail Pharmacy Group, QA Contact: Ms. Fatima Al-Sayed)
Suggested Severity: Major (regulatory involvement, batch-wide cosmetic/stability concern)
